F75 STRATEGIC DECISION MAKING

Page 1

This course is designed to provide delegates with an effective source of environmental information and should be a key part of any executive's environmental scanning strategy. The course reviews main external information from many perspectives, including economic, governance, technological and accounting. Delegates will develop an understanding of contemporary strategic issues which is essential to their organisations' long-term survival and growth in today's rapidly changing business environment.

SKILLS ATTAINED

- ✓ Develop an improved awareness of the importance of external information in strategic decision making
- ✓ Recognise key global and regional economic opportunities and challenges
- ✓ Understand current corporate governance issues and frameworks
- ✓ Implement recent changes in accounting practice and techniques
- ✓ Appreciate the impact of recent developments in technology and their potential business impact
- ✓ Appreciate key green issues, the policy framework and the potential impact on business
