

FINANCE & ACCOUNTING

FA16 Finance for Non-Financial Professionals

This course equips non-financial professionals with the practical knowledge and confidence needed to engage effectively with financial data, reports, and strategies. Delegates will gain a comprehensive foundation in key financial concepts, enabling them to communicate with finance colleagues, interpret financial statements, manage budgets, and contribute to sound organisational planning. With real-world examples, hands-on exercises, and simplified explanations of financial terms, this programme demystifies finance and empowers participants to make more informed, responsible, and strategic decisions.
