

MANAGEMENT

MG19 Business Process and Management of Change

This course equips participants with the knowledge, tools, and practical techniques required to analyse, redesign, and optimise processes while leading change initiatives with confidence. By combining process improvement frameworks with proven change management methodologies, delegates will gain the ability to drive operational excellence and embed sustainable transformation. Participants will learn how to overcome resistance, foster a culture of adaptability, and ensure smooth implementation of change initiatives across diverse organisational contexts.

Course Information

Duration: 5 days

London (£4950): 14th July 2025, 8th September 2025, 27th October 2025, 15th December 2025, 9th March 2026, 18th May 2026, 13th July 2026, 7th September 2026, 26th October 2026, 14th December 2026

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This programme is designed for managers, department heads, and professionals responsible for driving process efficiency and leading change in their organisations. It is particularly valuable for those working in dynamic environments where continuous improvement and adaptability are essential.

Course profile

Business Process Insight & Alignment

- Analysing core and support business processes
- Mapping processes for clarity and efficiency
- Defining key areas requiring immediate attention and transformation.
