PROJECTS, LOGISTICS, QUALITY & AUDIT

PL19 Project Planning and Control

This comprehensive course is designed to equip management and supervisory professionals with the essential skills and competencies needed to excel in project management. The course focuses on providing practical tools and approaches to enhance performance, improve project planning and control, and prepare delegates to tackle workplace challenges effectively. Participants will leave the course with modern, applicable knowledge that can be implemented immediately in their professional roles.

Course Information

Duration: 5 days

London (£4950): 2nd February 2026, 27th April 2026, 22nd June 2026, 10th August 2026, 5th October 2026, 23rd November 2026, 1st February 2027, 26th April 2027, 5th July 2027, 23rd August 2027, 18th October 2027, 6th December 2027, 13th March 2028

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This course is ideal for professionals in mid-level management and supervisory positions who are currently responsible for managing teams, projects, or departments. It is tailored for individuals looking to strengthen their leadership abilities, enhance team performance, and improve communication within their organisations.
