PL25 Best Practice in Managing Procurement

In an era of increasingly complex, global, and mission-critical supply chains, procurement has become a cornerstone of business success. This comprehensive course is designed to equip procurement professionals with modern tools and strategies to enhance their procurement function. Over five days, participants will gain practical skills to manage internal teams and external suppliers effectively, ensuring a professional and efficient procurement operation. The course emphasises continuous improvement, ethical procurement practices, and strategic supplier management, preparing delegates to navigate and excel in the dynamic procurement landscape.

Course Information

Duration: 5 days

London (£4950): 30th June 2025, 18th August 2025, 13th October 2025, 1st December 2025

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This practical course is ideal for Procurement Managers, Project Managers, and professionals involved in the procurement function. It is tailored for those who need to overcome procurement challenges and capitalise on opportunities. Participants will include procurement subject matter experts, technical specialists, and leaders responsible for specialised procurement teams. This course ensures that attendees remain at the forefront of

their fields, equipped with the latest tools and strategies in procurement management.
