

FINANCE & ACCOUNTING

FA42 Strategic Financial Management

In a volatile and globally competitive business environment, financial acumen is critical to making sound strategic decisions.

This course equips senior executives, project managers, and financial leaders with advanced skills in strategic financial management to help them steer their organisations towards long-term value creation.

Delegates will explore the interplay between financial strategy and organisational goals, focusing on investment optimisation, risk control, and sustainable growth. Emphasis will be placed on analysing financial data from a strategic perspective, aligning financial resources with corporate vision, and navigating complex financial environments with confidence.

Through real-world case studies, simulations, and practical frameworks, participants will emerge with the capability to integrate financial thinking into corporate strategy.

Course Information

Duration: 5 days

London (£4950): 14th July 2025, 8th September 2025, 27th October 2025, 15th December 2025, 23rd March 2026, 18th May 2026, 13th July 2026, 7th September 2026, 26th October 2026, 14th December 2026

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This course is designed for Financial Leaders and Senior managers, who are engaged in business planning and strategic decision-making. Participants will include those with a foundational knowledge of financial accounting and concepts, seeking to refine their strategic financial management capabilities. It is especially beneficial for leaders seeking to improve their organisation's financial agility and competitiveness in global markets.

Course profile
