

INTERPERSONAL SKILLS

IN10 Influential Communication and Critical Thinking

This course aims to equip managers, team leaders, and executives with advanced communication and critical thinking skills necessary for effective leadership in today's dynamic business environment. The course is designed to refine participants' ability to lead authentically, inspire teams, and drive organisational success. Through practical tools, interactive sessions, and real-world case studies, delegates will enhance their decision-making capabilities and learn innovative approaches to problem-solving. By the end of the course, participants will have acquired new strategies and techniques that they can immediately implement to overcome workplace challenges and improve performance.
