

LEADERSHIP & STRATEGY

LE12 Decision Making and Problem Solving for Leaders

In today's fast-paced and complex business environment, effective decision-making and problem solving are crucial for leadership success. This course provides senior leaders with advanced tools and techniques to enhance decision-making and tackle challenging situations strategically. Over five days, participants will develop skills to make informed, quick, and impactful decisions, thereby driving their organisations towards achieving competitive advantage and superior performance.

Course Information

Duration: 5 days

London (£4950): 30th June 2025, 18th August 2025, 13th October 2025, 1st December 2025

Dubai (£4950): 9th June 2025, 3rd November 2025

Istanbul (£4950): 4th August 2025

Milan (£4950): 1st September 2025

Barcelona (£4950): 12th August 2025

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This course is specifically designed for senior executives, team leaders, and managers who are tasked with making high-stakes decisions in their organisations. Participants are likely to be experienced leaders who require advanced strategies to address, analyse, and resolve complex issues effectively. This programme is ideal for those who aim to refine their decision-making processes and lead with confidence in a dynamic business landscape.

Course profile
