

PROJECTS, LOGISTICS, QUALITY & AUDIT

PL31 Advanced Project Management

The pressure on companies to deliver projects on time and within budget is growing, necessitating high-level project management skills and the latest approaches. This advanced project management course provides delegates with an overview of contemporary best practices and methodologies essential for managing multiple and complex projects. In an ever-changing world, your individual skill set and approach are the only certainties. This advanced course equips delegates with the practical tools and strategies required to deliver projects effectively, enhancing their performance and preparing them for workplace challenges.

Course Information

Duration: 5 days

London (£4950): 7th July 2025, 1st September 2025, 20th October 2025, 8th December 2025

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?

This practical and enlightening course is designed for Project Managers and Directors seeking to enhance their effectiveness and skills in Project Management. It will also benefit those in procurement or contract functions, or technical areas regularly involved in projects. It will be ideal for professionals excelling in specialised advanced project management roles or overseeing teams engaged in critical projects.
