

MANAGEMENT

MG60 Organisational Strategy and Digital Transformation

This course combines cutting-edge approaches in strategic management and digital transformation, designed for senior leaders and managers aiming to drive organisational growth and innovation. It focuses on refining strategic thinking, organisational development, and implementing effective digital transformation strategies. Participants will explore how to assess global economic trends, develop robust organisational structures, and implement dynamic strategies. They will also learn how to lead digital transformation initiatives, assess organisational digital maturity, and leverage information technology to create value. Throughout the course, participants will gain practical tools to apply these concepts in their workplace, enhancing their ability to lead in today's competitive business landscape.

Course Information

Duration: 10 days

London (£9900): 30th June 2025, 13th October 2025, 1st December 2025

Companies nominating 3 or more delegates to attend the same programme will enjoy a special discount on the course fees.

Upon completion of one of our CPD certified courses, delegates will be awarded both an LMC certificate and a CPD certificate. No examination required.

Who is the course suitable for?
